Author(s)	First Author, Second Author, Third Author
Contact	First Author (email@example.com)
Release date	01 July 2026
Document classification	Unrestricted
Status	Draft
Tags	validation, EoR, jira:SE-397

UKSRC Memo Disclaimer

The UKSRC memos are intended to support the rapid recording of technical work, investigations, design notes, and open questions. A memo may reflect the views of its authors at the time of writing and should not automatically be taken as formal UKSRC policy, project baseline, or final design guidance.

Executive summary

This memo summarises the purpose, scope, main conclusions, and any actions requested of the reader. Replace this paragraph with a concise executive summary suitable for circulation as a stand-alone overview.

List of abbreviations

Abbreviation	Description
SKA	Square Kilometre Array
UKSRC	United Kingdom SKA Regional Centre
UKSRC-ST	UKSRC Science Tooling

1 Introduction

State the purpose of the memo, the intended audience, and the scope. Cite literature where relevant, for example Jansky [1933]. Replace or add to this reference with a paper that is relevant to the memo. This sentence includes an example footnote¹ to show how notes are styled in the template.

2 Context and Scope

Use this optional section only if separate background or scope definition is useful.

3 Main Discussion

Use this section for the core material of the memo. Replace the example subsections with headings that fit the actual content.

3.1 Topic 1

Add the first main topic here.

3.2 Topic 2

Add the second main topic here.

4 Conclusions and Recommendations

Summarise the key outcome of the memo and any recommendations or decisions.

Acknowledgements

This work was supported by <funding body, grant, project, or institutional support>. The authors acknowledge <additional support, facilities, or collaborations where relevant>.

¹Example footnote text.

Contributions

First Author led the conceptualisation and methodology, and prepared the original draft. Second and Third Author contributed software development and reviewed and edited the manuscript. External Contributor provided review and editing support. The authors thank <any additional contributors or collaborators> for their contributions to this work.
